

YOUR DREAM OUR PASSION

# TASKS

## WEB DEVELOPMENT INTERSHIP TASKS

---

This Internship program focuses on providing you with hands-on experience in Web Development. You will learn the latest technologies and framework to build modern and responsive Websites.

# TASK 1

## RESUME BUILDER

---

Create a Resume Builder web app using ReactJS and NodeJS. This project enables users to easily generate resumes by filling out a form. It's a unique addition to your portfolio and a valuable tool for professionals seeking automated resume creation. Add this project to your resume for enhanced credibility.

# TASK 2

## TO-DO LIST

Create a To-Do List web application using HTML, CSS, and JavaScript. Users can easily create, save, and organize their daily tasks. This app simplifies task management and provides a convenient way to track and prioritize tasks.

# TASK 3

## SURVEY FORM

Build a Survey Form web application using HTML and CSS. Include essential questions like first name, last name, age, email, and more, tailored to the specific needs of the business or organization. Survey forms are valuable tools for gathering crucial data from the target audience.

# TASK 4

## AGE CALCULATOR

---

Create a web-based Age Calculator using JavaScript to calculate users' ages based on their submitted date of birth, month, and year. JavaScript's built-in date and time functions simplify the age calculation process, making it easy to determine someone's age.
